

LEVERAGING MTSS TO STRENGTHEN COMMUNITY SCHOOLS AND BEYOND

A 2-HOUR LIVE VIRTUAL EVENT

Community Schools bring educators, families, and community partners together to offer a range of opportunities, supports, and services. This event will explore developing a framework for data-driven decision making that supports trauma informed practices. This includes aligning programs/initiatives and integrating data/systems/practices to ensure success. This **virtual training** is designed to:

- Explore the importance of the critical features of MTSS in the current education climate.
- Deepen your understanding of an MTSS framework.
- Learn how to strengthen district-community-partnerships with an MTSS framework to achieve desired outcomes.
- Leave with resources and thoughts about next steps for tomorrow and beyond.

Don't miss out on this exciting opportunity to **participate** in an interactive, virtual training session, **network** with partners from across the region, and **learn** from a national expert.

School teams are encouraged to register together and join!

SIGN UP FOR **ONE** OF THE THREE OPTIONS BEING OFFERED!

The registration limit is 50 people per training.
